## **DETAILED ACTION**

### ***Response to Amendment***

The rejection of claims 1-2, 9, and 12-13 under 35 U.S.C. 102(a) as being anticipated by "Quinoxalines Incorporating Triarylamine: Potential Electroluminescent Materials with Tunable Emission Characteristics", Thomas et al, is moot in view of applicants amendments and arguments.

The rejection of claims 10-11 and 14-17 under 35 U.S.C. 103(a) as being unpatentable over "Quinoxalines Incorporating Triarylamine: Potential Electroluminescent Materials with Tunable Emission Characteristics", Thomas et al, in view of Thompson et al, 6,303,238 B1 is moot in view of applicants' amendments and arguments.

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-4 and 9-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In particular, claim 1 as amended adds the language of "at least one of R1-R4 are different from the others". This language is vague and indefinite because it is not clear what "the others" refers to. It is not clear if this language refers to R1-R4 or R1-R12 or R5-R12. Moreover, if this language refers to R1-R4, it is not clear that the specific examples of compounds both disclosed in the specification and as claimed

Art Unit: 1774

meet this limitation. Alternatively, if this language refers to R1-R12 or R5-R12, then only the compound of claim 8 meets this limitation. Accordingly, the metes and bounds for which patent protection is being sought are not clear.

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-4 and 9-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. More specifically, as set forth above, the amendment to claim 1 adds the language of "at least one of R1-R4 are different from the others". The specification, as originally filed does not contain this language and said language results in compounds that are not disclosed in the specification as originally filed.

No claims are allowed.

### ***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1774

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
